

**INTERNATIONAL ENVIRONMENTAL LAW:  
CONTEMPORARY CONCERNS AND CHALLENGES IN 2014**

**Editors: Dr Vasilka Sancin and Maša Kovič Dine**

**Table of Contents**

**1. Conceptual Evolution of Environmental Law**

- Challenging the Labyrinth: Sustainable Scales, Trade-offs and Perspectives through Environmental Law (Volker Mauerhofer)
- Differential treatment in multilateral environmental agreements: from effectiveness to efficiency? (Thomas Deleuil)
- The Circulation of Legal Models: Towards the Evolution of Environmental Law (Ivano Alogna)
- Environmental degradation and the role of the international community: Is there a lesson to be learnt from R2P? (Jolanda van der Vliet)

**2. Environment and Environmental Rights**

- The biocentrism approach to protect nature: the Bolivian legislation on the mother earth rights (Susana Borràs Pentinat)
- Addressing some challenges of international environmental law with dignity (Dina Townsend)
- The Non-Identity-Problem as a Challenge to Intergenerational Justice (Igor Pribac)
- The integration of a gender perspective in international biodiversity law and policy (Nicky Broeckhoven)

**3. Aarhus Convention in Theory and Practice**

- Exploring the Legal Nature of State Obligation to Provide Information to the Public In the case of Imminent Threat to the Environment: More than the B-Side of the Individual Right to Access? (Nicola Colacino)
- Access to Justice (Steps to procedural harmonization on grounds of Aarhus Convention?) (Tanja Pucelj Vidović)
- Access to justice in environmental matters: what is new on the implementation of the Aarhus convention in the European Union? (Chiara Sisler, Eva de Götzen)
- The Aarhus Convention and the Democratic Involvement in Environmental Issues: The Italian Case (Elena Falletti)
- Access to Environmental Justice: A Case of Montenegro (Ivana Jelić)
- Aarhus Convention in Action – Czech NGO Public Participation Analyses (Petra Humlickova)

**4. Institutional Developments in Environmental Governance and the Role on Non-State Actors**

- Changing the role of UNEP: a critical analysis of the Rio+20 reform (Gianfranco Gabriele Nucera)
- Environmental Governance of Non-State Actors (Ana Kastelec)
- Market Mechanisms in Transnational Environmental Law: The Case of Green Development Mechanism (Jerneja Penca)

## **5. Climate Change**

- Green Diplomacy (Lučka Kajfež Bogataj)
- African Responses to Global Climate Change Threats (Hennie Strydom)
- Linking the challenges of Climate Change & Air Pollution: Promising legal and policy efforts to scale up action for clean air and a stable climate (Birgit Lode)

## **6. Biodiversity**

- Going beyond the standstill: towards a duty for ecological restoration within EU biodiversity law? (Hendrik Schoukens)
- Threats to Biological resources: The Sri Lankan Experience (A.M. Kaushalya K. Premachandra )

## **7. Forests and Environmental Obligations**

- Forests and economic development in the context of multilateral and regional negotiations on forests (Marco Citelli)
- REDD and Indigenous Rights (Ros Vickers)
- Forest Ecosystem Services and Law (Maša Kovič Dine)

## **8. Management of Water Resources**

- Allocation of Water Resources and Public International Law (Stefan Lorenzmeier)
- From economic to sustainable objectives in the law of international watercourses (Julie Gjørtz Howden)
- Pushing the boundaries: Rethinking international law in light of the common concern for water security (Bjørn-Oliver Magsig)
- Management of Water Resources in Africa (Bolanle T. Erinsho)

## **9. Oceans and the Environment**

- Kotlyar
- The Limits of Port State Jurisdiction over the High Seas (Makoto Seta)
- The Changing Multi-Level Governance of Arctic Shipping: Challenges and Opportunities for the East Asia (Nengye Liu)

## **11. Environmental Refugees and Environmental Rights of Indigenous People**

- People displaced for environmental reasons (EDPS): Facts and initiatives for their legal recognition and protection (Evgenia Polychronidi)
- The protection of sacred sites through the human right to a decent environment (Elisa Ruozzi)
- Protected areas, the rights of indigenous peoples and co-management as a viable solution?-Latin American experiences (Christina Binder)

## **12. GMOs, IAS and the Environment**

- The GMOs problem in the EU: trade obligations, environmental concerns and issues of sovereignty (Julinda Beqiraj)

- Ecology vs. Economy? International Conventions and Empty Spaces in Dealing with Invasive Alien Species (IAS) (Clara Gläve)
- Impact of legal regulations on the expansion of invasive plant species on the example of Odra Border River (Patrycja Zgola, Tomasz Zgola)

### **13. Armed Conflicts over Natural Resources**

- Environmental Degradation as a Threat to International Peace and Security (Miša Zgonec-Rožej)
- Right to water in occupied territories (Vasilka Sancin)

### **14. Development and Environment**

- Economic development and environmental protection: rivals or best friends? The ecosystem service approach from an international environmental law perspective (Leonie Reins)
- Global Governance, Protection of the Environment and Eradication of Poverty (Marko Maver)
- Fair and equitable treatment provision in the context of environmental protection (Barbara Skardzińska)

### **15. Economy, Sustainable Management of Energy Resources and Regulation of Chemicals**

- Behavioural economics insights to international environmental law (Rute Saraiva)
- The tax treatment of depreciations and provisions for environmental related activities: a comparison between Portugal and Spain (Antonio Martins)
- Sustainable Energy Production from Old-Coal-Fired Thermal Power Plants Beyond 2016 Utilizing Major Rehabilitation Program (Vlatko Cingoski, Dimitar, Tanurkov, Kosta Papasterevski)
- The Minimata effect: A new regime for global treaty governance of pollutants (Jeffrey Smith)

### **16. Environmental Cases before International Judicial Bodies**

- 'MOX Dam'? Constructing an ECJ Jurisdiction in the Gabčíkovo-Nagymaros Dispute in Light of MOX Plant (Markus P. Beham)
- The challenges of International Court of Justice on international environmental dispute settlements and its contributions for the development of global environmental law (Rafael Oliveira do Prado)
- Environmental Protection and Article 6 of the European Convention on Human Rights (Sanja Grbić)
- Environmental protection and the Article 2 and Article 8 of the European Convention on Human Rights (Marija Milenkovska)

### **17. Domestic policies, legislations and practices**

- Human Right to Environment at the National Level: Only on Paper or Really Applied? (Hana Müllerová)
- Environmental Tax Reform in Serbia: The Case of Waste Disposal Fees (Marko Dimitrijević)
